S 81917

# INDEX.

## VOL. VIII, MAY, 1891—APRIL, 1892.

The notes signed by initials in this volume are here indexed under the names of the authors.

ABBE, Professor C., 173, 250, 342, 537.
Acclimatization, 564.
Aerodynamics, 185.
Africa, Climate of Tropical, 421
Africa, Prize Essay on Equatorial, 422.
Agricultural Stations, Meteorological Work of, 315.
Agriculture and the Weather Service, 6.
Air Density, A Study of the Synoptic Charts of, 335.
Altitude Climates and Diseases of the Chest, 264
Altitude and Hay Fever, 226.
Anemograph at Blue Hill Observatory, 382.
Anemograph for Vertical Currents, 481.
Anemometer, An Ink Recorder for the Electrical, 18.
Arabian Sea, Cyclones of the, 432.
Artificial Rain, 484.
Ashley, Alexander, 363.
Assmann, Dr. R., 211.
Atmosphere, The Upper Strata of the, 426.
Atmospheric Air, Radiation of, 529.
Atmospheric Electricity, Experiments in, at Blue Hill Observatory, 233.
Atmospheric Electricity, 278.
Atmospheric Radiation of Heat and Meteorology, 537.
Aurora, Zodiacal Light and the, 79.
Australasia, Meteorology of, 326.

BALLOONS, The Aspiration Psychrometer and, 211.
Balloon Ascent in an Anticyclone, 233.
Balloon Meteorology, 465.
Balloon Voyages, 289.
Barometric Minima, Paths of Across Europe, 422.
Barometric Pressure, High Winds and, 231.
Barometer, The Roman Explosion and the, 464.
Belle Isle, Ice and Current off, 179.
Bergen Point Tornado, 216.
Bibliography of Meteorology, 334.
Bigelow, Prof. Frank H., 385, 552.
Blue Hill Observatory, The Anemograph for Vertical Currents at, 481.
Blue Hill Observatory, Experiments in Atmospheric Electricity at, 233.
Blue Hill Observatory, Vertical Anemograph at, 182.
Blue Hill Observatory, Cloud Heights and Velocities at, 108.
Blue Hill Observatory, Local Weather Predictions of, 58.
Boston Public Schools, Meteorology in the, 527.
Boston, A Geographical Exhibition in, 93.
Brainard, E. N., 244.
Brazil, Climatology of, 429.
Brocken, The Spectre of the, 43.

CALIFORNIA, Meteorology of, 192.
California, The Hot Winds of, 221.
Canadian Meteorological Service, 277.
Canadian Northwest, Forests in the, 40.
Ceylon, Meteorology of, 430,
Chest Diseases, Action of Altitude Climate on, 264.
Chief of Engineers, for 1890, Report of, 236.
Chief of the Weather Bureau, The New, 126.
Clayton, H. H., 62, 91, 108, 369.
Climatology, Medical, 510.
Climatology of Iowa, 464.
Climate and the Sugar Beet, 476.
Cloud Heights and Velocities at Blue Hill Observatory, 108.
Cloud Observations at Sea, 250.
Cloud Observations and Faye's Theory, 43.
Cloud Pictures, A Request for, 526.
Clouds, Rapid Advance of, 94.
Cold Waves, 1, 376.
Colton, A. L., 273.
Corrigenda, 382, 575.
Curves of Magnetic Declination, 96.
Cyclone Belts, Permanent, 523.
Cyclone Belts, Physical Traces of, 333.
Cyclones of the Arabian Sea, 432.

DAVIS, W. M., 53, 348, 493.
Deductive Methods of Weather Prediction, 144.
Dew, 34.
Dynamic Meteorology, Progress of, 287.

EARTHQUAKE, The Great Japan, 503.
Eddy, William A., 122, 216.
Editorial Note, 578.
Electricity and Storms, 506.
Electricity, Experiments in Atmospheric, at Blue Hill Observatory, 233.
Ellis, William, 329.
English Meteorological Office, Publications of the, 465.
Errata in "New High Level Observatories in France," 421.
Estes, Prof. Ludovic, 4.
European Weather Predictions, 53.
Explosion, The Roman and the Barometer, 464.

FARADAY'S Observations of Wind-waves, 281.

Faye, M., and the American Meteorological Journal, 383.
Faye's Theory and Upper Cloud Observations, 43.
Felkin, Robert W., 564.
Fergusson, S. P., 18, 481
Ferrel's Contributions to Meteorology, 348.
Ferrel's Early Astronomical Work, 327.
Ferrel's Influence in the Signal Office, 342.
Ferrel's Official Record, 363.
Ferrel, Professor William, 241, 359.
Ferrell's Work on the Coast Survey, 339.
Finley, John P., 221.
Flag and Whistle Signals, 469.
Fog, Ocean, 171.
Folk Literature, Meteorological, 476.
Forecasts of the U. S. Signal Service, 49.
Forests in the Canadian Northwest, 40.
Franklin's Kite Experiment, 97.
French Association, Meteorology at the, 301.
Frost of 1890-91, The great, 33.
Garriott, E. B., 171.
Gawthrop, H., 560.
Geographical Exhibition in Boston, 93.
Geographic Names, Foreign, 288.
Glacial Age, The Climate of the, 129.
Glacial Epoch, The Temperature of, 43.
Goodfellow, Edward, 539.
Gradients, On the Various Kinds of, 159.
Greely's Report for 1890, 235.
Ground Water and Disease, 36.
Gulf Weather, Some Western, 126.

HAILSTORMS and Lightning Strokes, 423.
Hall, T. Proctor, 170.
Harrington, M. W., 6, 69, 94, 315.
Hawaiian Climate, Features of, 308.
Hayden, Everett, 129.
Hay Fever, Altitude and, 226.
Hazen, H. A., 46, 272, 289, 302, 460, 506.
Helme, Nathaniel, 61.
Herdman, W. J., 226, 510.
High Winds and Barometric Pressure, 231.
Highest Meteorological Station, The, 92.
High Level Meteorological Observatories in France, 316
Hildebrandsson, H., 13.
Hoffman, Professor, Work of, 474.
Hong Kong, Meteorology at, 191.
Hurricane of March, 1889, The Samoan, 129.
Hutchins, C. C., 529.
Hygiene, The International Congress of, 428.

ICE and Current off Belle Isle, 179.
Indian Monthly Weather Review, 431.
Indian Meteorological Memoirs, 431.
Influenza, Is it spread by the Wind, 13.
Ink Recorder for the Electrical Anemometer, 18.
International Congress of Hygiene, 428.
International Meteorological Congress at Munich, 128, 435.
Iowa, Climatology of, 464.

JAPAN, The Great Earthquake in, 503.
Julian, W. N., 43.

KINGSTON, R. I., Local Weather Predictions at, 61.
Kite Experiment, Franklin's, 97.
Kite-flying, Meteorological, 122.
Kuichling, E., 406.

LAKE BONNEVILLE, The Climatic History of, 164.
Lake Gervais Tornado Photograph, 329.
Lake Salton, Rain About the New, 330.
Lake Gervais, Tornado Photograph, The Authenticity of, 273.
Lakes, Mean Level of the, 283.
LaPlata Annual of the Observatory of, 143.
Leste, An Account of the, 517.
Leudet, Dr., 264.
Lightning Strokes, 34.
Lightning Strokes and Hailstorms, 423.
Lightning, Rain-clouds and, 284.
Literature, Meteorological Folk, 476.
Low, Local Storms Northeast of a, 230.
Luminous Arch, 35.
Lyons, Curtis J., 308,

MADEIRA, The Leste or Hot Winds of, 517.
Magnetism, Terrestrial, 385.
Magnetarium, Wilde's, 552.
Magnetic Declination, Curves of, 96.
Marine Cloud Observations, 250.
Marriott, William, 26.
Maury's Physical Geography, 575.
McAdie, Alexander, 97, 241, 575.
Mean Level of the Lakes, 283.
Medical Climatology, 510.
Meteorology in the Public Schools of Boston, 527.
Meteorological Notes, 180, 278.
Meteorology, Progress of in 1889, 94.
Meteorological Kite-flying, 122.
Michigan Mineral Waters, 244.
Mineral Waters of Michigan, 244.
Mirage on a Wall, 525.
Mont Blanc Observatory, 384.
Morant Cays, The Current off, 526.
Mountain Meteorology, 145, 193, 421.
Mountain Meteorological Stations of the United States, 396.
Mountain and Sea Air, 330.
Munich Conference, 128.

NAHA, Liukiu Islands, Japan; Meteorological Station of, 459.
Newburyport, Mass., Local weather Forecasts at, 69.
Newcomb, Simon, 337.
New England Meteorological Society, 49.

OBSERVATIONS at a Distance, 170, 329.
Observations on the Sonnblick, Result of, 281.
Observatory, New High Level Meteorological, in France, 316.
Ocean Fog, 171.

PARAGUAY, Climate of, 427.
Parhelia and Paraselenae at Grand Forks, Da., 4.
Peace River Country, 38.
Peru, A Lofty Meteorological Station in, 329.
Phenology, 424.
Phonometer, 382.
Photography in Meteorological Work, 20.
Photography, Its Application to Meteorological Phenomena, 26.
Physical Traces of Cyclone Belts, 333.
Psychrometer, The Aspiration and its use in Balloons, 211.

RADIATION of Atmospheric Air, 529.
Rain, Artificial, 484.
Rain Clouds and Lightning, 284.
Rainfall, Theories of Artificial and Natural, 493.
Rainfall Scheme, Farwell's, 84.
Rainfall—its Duration and Intensity at Rochester, N. Y., 406
Rain Formation, 177, 272.
Rain Gauges, Observations with Different, 92.
Repertorium für Meteorologie, 237.
Respiratory Diseases and Cold Weather, 281.
Rochester, N. Y., Duration and Intensity of Rainfall at, 406.
Rotch, A. Lawrence, 58, 92, 93, 145, 193, 301, 316, 396, 433.
Royal Meteorological Society, 181, 282, 383, 466, 576.

Russian Stations of the Second Order, 191.
Russell, Prof. Thomas, 1.

SAMOAN Hurricane of March, 1889, 129.
San Jose, Observations at, 287.
Sherman, O. T., 79, 303.
Signals, Flag and Whistle, 469.
Smith, J. Warren, 49.
Snellen, Dr. Maurits, 277.
Sonnblick, Result of Observations on the, 281.
Soil Temperatures, 42.
Spectre of the Brocken, 43.
Station, The Highest Meteorological, 92.
Stations, Mountain Meteorological, of the United States, 396.
Station, A Lofty Meteorological, in Peru, 329.
Storms and Electricity, 506.
Storms of August, 279
Storms, Local, Northeast of a low, 230.
Storms of September and October, 331.
Sugar-beet, Climate and the, 476.
Sunset Phenomenon, 229.
Synoptic Charts of Air Density, A Study of, 335.

TAMAULIPAS, Notes on, 182.
Taylor, H. C., 517.
Teisserenc de Bort, 159.
Temperature of the Glacial Epoch, 43.
Temperature Variations and the Zodiacal light, 303.
Texas, Temperature and Rainfall in, 187.
Thermometer Correction, Another, 277.
Thunder, Its Cause, 230.
Tornado, The Bergen Point, 216.
Torrential Rains in March, 279.
Trade Routes and Wind Systems, 34.

VAN BEBBER'S Text Book of Meteorology, 190.
Veeder, M. A., 179.
Velocities, Cloud Heights and, at Blue Hill Observatory, 108.
Velschow, F. A., 177, 421.
Verification of Weather Forecasts, 369, 392.

WADA, Y., 459, 503.
Waldo, Frank, 237, 350.
Wambaugh, W. J., 229.
Ward, R. DeC., 164, 484.
Washington, D. C., Wind Rush at, 460.
Water Spouts, 173, 183.
Weather Bureau, The New, 46.
Weather Bureau, Flag and Whistle Signals adopted by the, 469.
Weather Charts, Explanation of, 468.
Weather Forecasts, Varification of, 369, 392
Weather Forecasts at Newburyport, Mass, 69.
Weather Predictions, Deductive Methods of, 144.
Weather Predictions, Long Range, 62.
Weather Predictions at Kingston, R. I., 61,
Weather Prediction in the States and its Improvement, 69.
Weather Predictions, European, 53.
Weather Predictions of Blue Hill Observatory, 58.
Weather Service and Agriculture, 6.
Whipple, G. M., 20.
Wilde's Magnetarium, 552.
Wind, Hot Wind of Madeira, 517.
Winds, Hot Winds of California, 221.
Wind Rush at Washington, D. C., November, 23, 1891, 460.
Winds and Showers, 179.
Wind Systems and Trade Routes, 34.
Wind Waves, Faraday's Observations of, 281.
Winter Temperatures, Method in, 560.
Woeikof, Dr. A., 376.
Woodruff, L. 126.
Wragge, Clement H., 326.

ZODIACAL Light and Terrestrial Temperature Variations, 303.
Zodiacal Light as Related to the Aurora, 79.
